Technical Report Writing & Presentation Skills For Power & Utilities Professionals

19 to 21 Mar 2012, Miri, Malaysia

Course Overview

Technical Report Writing and Presentations Skills for Power & Utilities Professionals focuses on unique needs of technical professionals who write and present for both technical and non-technical readers.

This 3 day separately book able workshop will demonstrate on how technical professionals can use their technical knowledge and logical edge to write in a reader-friendly, grammatically accurate way reports and persuasively communicate for buy-in purposes

Power & Utilities professionals increasingly need to translate complex findings, analyses, conclusions and recommendations for effective decision making. Engineers need to acquire the crucial competency to write and present clear & technically accurate reports. If you a face challenges in getting your findings into paper and presenting it effectively, you will benefit from this 3-day training course

Course Learning Outcomes

- Write and turn-around accurate technical documents quickly to meet deadlines and productivity goals
- Understand how technical reports should be structured by applying a systematic approach to the writing task, involving planning, drafting, revision and production
- Use clear & powerful language to target and persuade readers for positive results
- Use tried and tested proof reading techniques to check and review documents more effectively Identify and avoid common pitfalls in technical report writing
- Present and sell your technical presentation more effectively both internally and externally
- Plan and structure your meetings and presentations for maximum effect
- Capture your technical and non-technical audience by delivering your presentation with power and authority

Who Should Attend

This Workshop has been researched and developed for Managers, Superintendents, Supervisors, Engineers, Planners, Team Leaders and Project Coordinators in the technical and non technical departments in the Power & Utilities industry.

Technical Report Writing & Presentation Skills For Power & Utilities Professionals

19 to 21 Mar 2012, Miri, Malaysia

Your Expert Faculty

On joining the British Council, Kuala Lumpur in 1997, Steve managed the Business Skills Unit and was involved in the marketing of British Council programmes as well as overseeing all training-related matters.

Steve considers himself a trainer first and specializes predominantly in high-level writing and technical report writing programmes. In addition to conducting training in Technical Writing, Steve has also been the chief editor for two large writing projects. The first was the entire Start-Up Manual (including the Black Start Manual) for Nippon Oil's Helang Integrated Platform, which came online off Sarawak in 2004. Steve was involved in this year-long project from the beginning, including helping to decide on the overall style aspects of the manuals to the final preparation prior to submission to the client. The second was a four-month project rewriting the manuals for the Puteri Dulang FSO off Terengganu.

Comments from past participants :

"Thank you for the course that gives us new ideas and techniques on how to write a report properly"

Nippon Oil Corporation

"It is worth the money!"

Sarawak Shell Bhd

"Training was efficient and issues regarding technical writing were resolved. I believe that this training there will be a better way to have our reports to appear readable and easy to understand"

Sarawak Shell Bhd

Steve has conducted programmes for all of the following organizations :

Petronas Carigali Vietnam, Thang Long JOC, BP Chemicals • Malaysian-Thailand Joint Authority • Petronas • ESSO • Wilh. Wilhelmsen • Murphy • Sarawak Shell • Petronas Carigali • MLNG
